DETAILED ACTION

This action is responsive to the terminal disclaimer filed 04-15-2004, which has been entered. Claims 1-2 are currently pending.

Drawings

1. The drawings were received on 04-15-2004. These drawings are approved as formal drawing.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the terminal disclosure filed 04-14-2004 has overcome the double patenting rejection. In addition, the prior art fails to anticipate or render obvious the combination of a silent chain power transmission apparatus, and in particular, include the inside and outside tooth faces being positioned to satisfy the expression Hi=Ho+HS, Hi is the distance from a pin centerline, passing through the centers of a pair the connecting pins, to a pitch line of the inside tooth faces of a link plate in which the pair of connecting pins, is fitted, Ho is a distance from the pin centerline to a pitch line of the outside faces of a link plate in which the pair of connecting pins is fitted and Hs is the amplitude of the polygonal motion of the chain. In addition, the concave bottom surface of each of the link plates is an arc-shaped surface scooped out more deeply than an arc tangent to the opposed inside tooth faces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Application/Control Number: 09/837,974

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marcus Charles whose telephone number is (703) 305-6877. The examiner can normally be reached on Monday -Thursday 7:30 am-600 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David Bucci can be reached on (703) 308-3668. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
